Happy
Valentine's
Day

Toddler's and Two's News

Ms. Kate & Ms. Deepa

The New Year is off to a great start in our class. We are continuing to have fun making crafts. The kids have become more comfortable with Ms. Deepa and I, it is always great to see a smiling face in the morning. Declan celebrated his 2nd birthday with all of his friends! In February we look forward to celebrating Rupert's 2nd birthday. The kids love to hear stories every day and spend lots of time playing with the new toys that were given to our class. The Librarian came in January to read stories about snow when everywhere else seemed to be getting snow except us. We look forward to hearing new stories from her in February. Of course we have lots of fun with Mr. Don in music each week. We even sing some of the songs when we are not in music, just in the classroom. One visit we just had was very exciting was Ms. Alex from Exotic Encounters. We learned about 6 animals. Ms. Alex brought them around to touch only if we wanted too. In February we look forward to a visit from the dentist to learn more about taking care of our teeth.

Please remember to send your child in Velcro shoes like the picture that I recently emailed out. Also a jacket each day as the temperatures are still cold.

We hope have a Happy Valentine's Day!

Ms. Anu & Ms. Maria

January is the month of cold and snow. We all talked about the snow in the class. We all did snow-man activity and we learned the color white. We really enjoyed exotic animal encounter with Ms Alex .

In the month of February we are going to learn about Friendship and Love, Letters P,Q,R,S and number 8, color pink & red and shape Heart . Also if your child would like to participate in exchanging valentines . We are fine with that idea.

We have a new friend (Leo) who joined us in January

Terrific Three's

Ms. Lindsey

Happy February!

Our themes for this month will be focused on Valentine's Day and also dental health. We will celebrate valentines by exchanging cards with our friends and enjoying a valentine treat! We will continue to work on our fine motor skills, our letters for the month will be K, A, M and N

A BIG happy

birthday to
Mazie and Leo

Ms. Trish

Welcome to February.... Our LOVE month! It may be the shortest month of the year, but we pack it with a lot of fun and learning.

Our theme for the month is dental health, groundhogs, zoo animals, and Valentine's Day! A lot of our crafts will revolve around our colors pink and purple as well as our shape...HEART!

As Valentine's Day approaches, we will continue to work on our friendship skills and learn how to use our words to express how we feel and problem solve with kind words and a kind voice.

Valentine's Day will be celebrated on Wednesday, February 14. Your child is welcome to bring in cards to hand out to each of their friends. It's a fun day for the children and other ways to spread the LOVE!

K-Prep

Ms. Elsie Hi Family

What a great January we had. We began learning our lowercase letters, Tallying in Math, Investigations with the weather, Ice by freezing molds and putting them into our homemade Snow that we made during cooking time. And let's not forget the great Box Curriculum with our RECYCLED ROBOT. Thank you all for the feedback on how your children are progressing this year. Keep those photos coming. We learned that Dr. Martin Luther King had a Dream, that we would all be Friends.

In February we will be celebrating the 100th Day of School. WOW how time is passing by...We are asking each family to save your tops from different bottles, juices, yogurt tops etc... Please send them in by February 09, 2024. We will be creating an art piece with 100 tops. Speaking of tops, we have been using the tops in Math through, grouping, counting, making uppercase letters, sorting and all in all, we are just having fun. We will continue counting by 10's and writing our numbers.

Our favorite day is in February, Valentine's Day! We can't wait for our party. We will begin our Clothes Study through Literacy, Math, Technology, and the Arts as they use their investigative skills. All activities are hands-on, and some Teacher Directed. All other fun activities will be on your calendar. Please check in our Communication Center for more fun activities.
